This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Summit Station (B. & M. R. R.), Burncoat Street.

Union Passenger Station, Washington Square.

NEW MAP OF WORCESTER Colored by wards. Published by Drew Allis Co., 452 Main St.

Digitized by Google

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know on what part of Main street No. 620 is: turn to Main street, and you find that Austin street runs from 600 right side, and Chandler street from 648, showing that No. 620 comes on the right side of Main street between Austin and Chandler.

Or, suppose that, going up Main street, you wish to take a cross street so as to call at 96 Woodland street; on examination (see Woodland) you find that 100 Woodland is at the corner of Oberlin street; so by passing from Main street through Oberlin street to Woodland, you are near the desired number, 96.

Dashes are substituted for numbers on streets that are not fully numbered.

In Worcester, as in all cities, street numbers usually begin at that end of a street which is nearest the centre of the city. Number of streets and alleys in city 1,565.

ABBREVIATIONS.—Av. avenue; ct. court; e. east; fr. from; nr. near; n. north; pl. place; s. south; sq. square; ter. terrace; w. west; Wd. ward.

*Indicates public streets. **Indicates streets a part of which are public, and a part private.

● Indicates street car lines. When placed after the name of a street it shows that car lines run through that street. When placed after a street beginning, ending or intersecting, it denotes cars on such intersecting street. For example, the ● connected with Alcott street shows cars on Vernon street but not on Alcott street. At Boynton street, cars run through the street, also, on connecting streets, Highland and Salisbury.

WORCESTER DIRECTORY

COPYRIGHT, 1916, SAMPSON & MURDOCK CO., BOSTON, MASS.

ABBREVIATIONS.—Agt, agent; Am, American; Assoc, Association; asst, assistant; av, avenue; b or bds, boards; bldg, building; blk, block; B & A R R, Boston & Albany Railroad; B & M R R, Boston & Maine Railroad; c or cor, corner; ct, court; dep, deputy; dept, department; do, ditto; E East; engnr, engineer; Ex, Express; fr, from; h, house; Inst, Institute; ins, insurance; manuf or mfr, manufacturer; Mfg, Manufacturing; mgr, manager; Mt, Mount; n, near; N, North; Nat, National; N Y, N H & H R R, New York, New Haven & Hartford Railroad; N G Co, Norton Grinding Co; opp, opposite; opr, operator; pl, place; P O, Post Office; pres, president; propr, proprietor; pub, publisher or publishing; Q, Quinsigamond; r, rear; rd, road; remd, removed; S, South; sec, secretary; Soc, Society; sq, square; st, street; supt, superintendent; ter, terrace; treas, treasurer; Univ, University; V F, Valley Falls; W, West; wid, widow; Worc, Worcester.

REMOVALS.—Against names showing removals from the city, the post office address is given; if into another State, both the post office and State are given.

DEATHS.—The date of death and age of all citizens, dying during the past year, whose names have appeared in the Directory, are recorded against the name in the proper alphabetical place. In the same manner each Directory since 1876 contains a record of those who died the previous year, so that the several volumes of the Directory for this period contain a mortuary list of great value for reference.
